ETHICAL, SOCIAL AND LEGAL CONSIDERATIONS OF BIOMEDICAL BIG DATA (BBD) HANDLING

'Big Data Divide' and governance of BBD

December 15th – 20th, 2024

Obergurgl & Innsbruck, Austria

27 participants
11 speakers

Participation in the DATAETHICS Conference with speakers from the Council of Europe and the World Health Organisation, amongst other

This course will focus on the ethical, social, and legal challenges of BBD management, particularly the Big Data Divide and the governance of data platforms. Key topics include privacy, consent, data ownership, healthcare access disparities, and best practices for ensuring responsible and equitable use of BBD.

Application deadline: October 4th, 2024
