

Eurolife Summer School 2026

8-12 June 2026
Trinity College Dublin
Ireland

BBD2026

[Apply HERE](#)

Biology of Brain Disorders (BBD) returns this summer to mark the 10-year anniversary of the series.

Since 2016, Biology of Brain Disorders (BBD) has brought together leading researchers and students to explore the molecular mechanisms underlying brain disorders.

Set in Dublin city center, participants will have the opportunity to engage with patients, clinicians, and research teams - emphasizing how research discovery impacts real world care.

This year's theme is 'Biomarkers and AI in Brain Disorders'.

No prior knowledge is required. Introductory lectures will provide the essential background needed to follow the course topics.
